Technology WIN

AURA EDITION imagined with Intel

Unique partnership
between **Lenovo & Intel** brings result –
AURA EDITION
devices for more
demanding users

Extra layer of
experience for user

Aura Edition devices

Extra layer of experience for AI PCs

Standard workplace

Too complicated route to adjust PC settings to work style, going universal, less efficient way

Windows
Laptops and phones live their own lives

Getting IT support takes effort

Goal: Automate PC settings to adjust according the task user has

Goal: Get all the devices to work together faster and easier for the user

Goal: Provide IT support the same minute issue appears

Lenovo Aura Edition devices

Much better user experience

Lenovo Aura Edition Is All About The Experience

Hero Experiences

Smart Modes

Smart Share

Smart Care

Elevated Core Experiences

Quiet Performance – Longer Battery – Best Display – Advanced Camera

Smart Modes

Instantly adapts the PC for different scenarios

SHIELD

Enhances data security and privacy while working in public areas

COLLABORATE

Single panel for controlling all video effects, regardless of meeting platform

WELLNESS

Promotes digital health by encouraging regular eye breaks and ergonomic habits

ATTENTION

Suppresses incoming distractions and limits access to distracting websites

ECO

Reduces power consumption and balances battery life with performance

Smart Share

Instant sharing and collaboration from any mobile device.

TAP

SHARE

Drag and drop

App mirroring

Text and call from PC

Native Support for BOTH iOS and Android

Smart Care
