**Everything just become more expensive.  
Copilot+PC should be your primary option**

# Substantial ROI

Projected over three years through benefits that include increased workforce and IT efficiency and reduced security risk.<sup>1</sup>

## SECURITY

**70% blocked**

Copilot+ PCs estimated to block 70% of typical breach vectors for up to 15% reduction in threat exposure.<sup>1</sup>

## PRODUCTIVITY

**5 hours saved**

Expected time-savings of up to five hours per employee each week through speedier workflows, freeing up time for other value-added work.<sup>1</sup>

## BUSINESS READY IT

**10-50% reduction**

10%-50% expected reduction in help-desk efforts with Copilot+ PCs due to faster provisioning, quick remote setup, & improved content discovery.<sup>1</sup>

**30% time-savings**

Anticipate reducing device management time by up to 30% due to improved reliability and support for proactive diagnostics.<sup>1</sup>

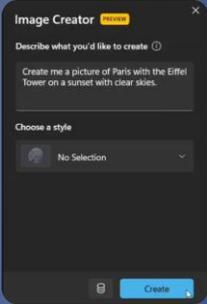

1. New Tech: The Projected Total Economic Impact™ of Microsoft Copilot+ PCs. Microsoft-commissioned study by Forrester Consulting, July 2025. Projected benefits for a single composite organization that has US\$1 billion annual revenue and 2,000 employees with 80% using Copilot+ PCs. In comparison to a mixed environment of conventional Windows 11 and Windows 10 PCs.

# How you can unlock efficiency and innovation with Copilot+ PCs today

## Agent in Settings

Agent in Settings<sup>1</sup> helps you quickly personalize your Copilot+ PC so you can work the way you want. Request a settings change with conversational language and choose from the recommended actions.

## Improved Windows search

You can forget the file name and easily find documents and photos with a short, conversational description of written or visual content in Windows search.<sup>4</sup>

## Click to Do

Click to Do<sup>2</sup> can highlight any text or image on your screen and instantly provide options for revising content, opening the right apps, scheduling meetings, and more.

## Windows Studio Effects<sup>5</sup>

Enhance videoconferencing and system performance with AI-enhanced features including automatic framing, natural-looking eye contact, and intelligent noise suppression.

## Live Captions with translation

Improve accessibility with Live Captions<sup>3</sup> providing real time speech translation from 40+ languages into English, and 25+ languages into simplified Chinese.

## Recall

Just describe it using text or visualesearch, and Recall will show you snapshots of the most relevant content in a way that feels like having photographic memory. Made possible by powerful NPUs running several small language models concurrently on device.

1 Available now in most global markets on Copilot+ PCs with Snapdragon® X Series processors and on other devices later in 2025. Limited initially to English-language inputs. 2 Click to Do available image and text actions vary by device, region, language, and character set. Subscription required for some actions. See Copilot+ PC FAQs. 3 Live Captions translates video and audio subtitles into English from 40+ languages and from 25+ languages into Chinese (Simplified). See Copilot+ PC FAQs. 4 Improved Windows search works with specific text, image, and document formats only; optimized for select languages (English, Chinese (Simplified), French, German, Japanese, and Spanish). See Copilot+ PC FAQs. 5 Requires built-in camera; available effects vary by device. See Copilot+ PC FAQs.
