Effective Display for Your Meetings

Experience high performance and comfortable viewing with high brightness, an anti-glare design, and eye-care technology - perfect for clear and strain-free visuals during meetings.

Connect and Collaborate with Ease

Easily connect your own device with built-in USB-C docking. Enjoy seamless meetings without the need for a separate console, making collaboration simple and clutter-free.

Smarter Computing for Uncompromised Workflows

Deploy and scale Microsoft Teams Rooms (MTR) effortlessly with Lenovo's advanced computing solutions, including ThinkSmart Core and ThinkSmart Tiny devices, which can be seamlessly managed through ThinkSmart Manager.

Product Overview

- Comfortable viewing experience with 400 nits brightness, 4K resolution, and an anti-glare design
- Easy integration of Lenovo computing devices (ThinkSmart Core, ThinkSmart Tiny, or ThinkCentre Tiny) into the rear slot
- Built-in USB-C docking solution with up to 96W power delivery for charging
- Compatible with the ThinkSmart Manager for synergized meeting room device management
- USB hub with both USB-A and USB-C ports for effortless connection to USB devices
- Best for meeting rooms with 2-4 people.

ThinkSmart Bar 180

Premium audio and cameras

ThinkSmart Bar 180

- ✓ AI-enabled cameras and audio
- ✓ 180-degree coverage with three-camera system
- ✓ Natural engagement with Dynamic Composition and Virtual Director
- ✓ Simple installation with one form factor and fewer wires

Premium audio & video

Easy plug-n-play

ThinkSmart Core Gen 2

The smartest thing in your meeting room

Powerful

Engineered for maximum reliability and 24/7/365 operation, this powerhouse delivers the high performance you need for consistent collaboration and easy management.

Flexible

ThinkSmart Core is the foundation for your high-impact space. No longer be limited by technology to build digital spaces that work for you.

Purpose-built

Every detail of this collaboration essential is engineered with the intention of minimizing disruption and technology failures.

All room sizes

Support

ThinkSmart Manager, Services, and Support

2025 Lenovo. All rights reserved.

ThinkSmart Manager

Cloud-based hassle-free remote efficiency for your entire ThinkSmart fleet

Proactive monitoring

- View real-time device status and resolve issues before they disrupt meetings.
- Receive notifications when devices go offline or require attention.

Better protection

- Securely manage and rotate passwords and UC accounts at scale across your organization.
- Apply consistent settings and usage policies across your entire device fleet.

Out of Band Management

- Deploy, configure, and update devices from anywhere—no need to be on site.
- Easily oversee hundreds of devices across multiple locations from a single dashboard.

intel
vPRO

ThinkSmart Manager comes pre-loaded on all ThinkSmart One Pro bars. ThinkSmart Manager has two levels: Basic and Premium. Premium is included with your ThinkSmart One Pro purchase for one year. You can choose to continue service for an additional cost.

ThinkSmart-Start

THINKSMART MANAGER PREMIUM

Included in the first year, ThinkSmart Manager Premium comes pre-loaded on all ThinkSmart devices. Leveraging Intel vPro® with Intel® Active Management Technology (AMT), this proprietary console delivers the ability to deploy, monitor, and troubleshoot ThinkSmart devices from a single interface, regardless of device location.

DEPLOY (3 years)

From virtual deployment installation to integration assistance, Lenovo ensures your ThinkSmart devices function optimally in your office environment.

MAINTAIN (3 years)

Technical support to assist with ongoing software and security updates and take the stress out of device maintenance.
